## Summary

Waveshare 4.3 DSI Display Enclosure

3D Printers > Other Printer Parts & Upgrades

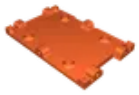

Tags: display enclosure cover waveshare dsi

**Attention!**
This enclosure for the Waveshare 4.3" display was modeled with zero clearance, so be sure to calibrate your printer for material shrinkage and make the necessary adjustments in your slicer.
Keep in mind that some Waveshare 4.3" displays may have the touchscreen or LCD panel slightly misaligned on the board. For this reason, I've included a STEP file so you can fine-tune the model to match your specific unit.

You'll need 4 × M2.5×10 mm screws, 6 × M2.5×6 mm screws, 6 × M2.5 brass threaded inserts, and 4 × M2.5 screws for attaching the display (choose the type that fits your version)
